PERSONAL PROFILE

Seeking a company that will help me take full advantage of my passion and experience in Technology. I am an enthusiastic, passionate and aspiring individual with a motivated mind for learning and overcoming problems.

EXPERIENCE

Junior Security Consultant
CQrity Limited

September 2014 - August 2015

- Conducted Web application and External assessments. I liaised with clients, produced detailed reports and collaborated with other penetration testing companies to conduct associate work.
- My responsibilities also included assisting with the management and development of other junior consultants and developing internal services.

Programming Tutor/ Founder
Steelcon / Early Computer Programming Club

March 2014 - April 2015

- I am the founder and the technical director of a partnership business called ECPC. Early Computer Programming Club was a micro-business based in Sheffield aimed at going into primary schools to teach the basic fundamentals of programming to children.
- I helped manage the project, create new tools and tutorials. This business was converted into a not-for-profit voluntary program which is run alongside Steelcon hacker conference every year.

Data Entry
Royal Mail MDEC, Stockport

November 2011 - December 2011

- Worked with a team 12 to 15 people to sort mail, entering data and manipulating images
- I learned many soft skills and technical skills including touch typing, MDEC software training, teamwork and communication.

Customer Advisor
Stockport College, Stockport

January - August 2011

- I worked with the customer service team for most open events. I met and worked with students who were interested and talked about courses the college offered.
- My responsibilities included greeting customers, creating presentations, delegate responsibility to other staff, plan and arrange events and activities and to train and work with new staff.

EDUCATION

BSc (Honours) Computer Security with Forensics, Sheffield Hallam University 2012 - 2016

- Year 1 Modules (Overall Average 71)
- Year 2 Modules (Overall Average 76)

IT National Diploma, Adult Numeracy, Stockport College, 2009 - 2011
• Distinction

GCSE ,Hazel Grove High School, 2009 - 2011
• Key Skills Communication level 3, 9 GCSE passes (including Maths (C), English(C), IT (B), History (B) Science(C) at Grade C or Above)

RELEVANT SKILLS & ACHIEVE- MENTS

Programming Languages: Python (moderate), Bash (moderate), Ruby (basic).
Web Technologies: Rails, Amazon EC2, Wordpress.
Mobile Security Tools: Drozer, AppUse, Frida, Apktool, Baksmali.
Preferred Tools: Burp Suite, NMap, SQLmap, Nessus, Metasploit, Encase.
Community contributions: Stockport College student ambassador, STEM Institute ambassador, Steelcon Volunteer, BSides Rookie track.
Conferences I attend: Blackhat Asia/EU, Steelcon, Bsides, OWASP Chapter meetings.
Certifications: Solarwinds Certified Professional, CCNA I: Networking Fundamentals.

EXTRA- CURRICULAR ACTIVITIES

I enjoy practicing martial arts in my spare time, and I have competed in Taekwondo, Muay Thai and Freestyle Kickboxing at an amateur level. My other interests include all aspects of security, regularly reading popular IT blogs, and also following a large amount of security professionals on twitter.

Being one of the founders of Sheffield Hallam University Ethical Hacking Society, I take an active role in training students, partaking in bug bounties, CTFs and using the word 'cyber'. My current focus is on web development, with an aim to improve both my programming skills and becoming a better application tester.

Finally, I also have a keen interest in traveling, and have visited many countries in the Asia region as well as Europe.
